EXPERIENCE

Dynatrace — *Vienna, Austria*

Software Engineer & Team Captain — Apr 2025 – Present

Leading a team of engineers as Team Captain while continuing hands-on development with React, TypeScript, and Deno. Responsible for technical decision-making, delivery quality, and integrating AI tooling, including GitHub Copilot, LangChain, and MCP-based agent skills into the team's engineering workflows.

Team Leadership · React · TypeScript · Deno · AI Tooling · MCP · Agile

Software Engineer & Agile Advocate — Mar 2024 – Apr 2025

Championed agile practices across the engineering organisation, facilitating retrospectives, improving workflows, and promoting a culture of continuous improvement. Contributed to feature development using React, TypeScript, and Deno, with early adoption of AI-assisted development tools.

Agile Advocacy · React · TypeScript · Deno · Process Improvement

Software Engineer — Jan 2024 – Mar 2024

Joined Dynatrace as a software engineer, onboarding onto a React/TypeScript/Deno stack and contributing to feature development across the platform.

React · TypeScript · Deno

World4You Internet Services GmbH — *Vienna, Austria*

Software Engineer — Jul 2023 – Dec 2023

Developed and maintained web hosting platform features, working across frontend and backend systems to improve customer-facing products and internal tooling.

PHP · Vue.js · Docker

Advoodle Legal Tech GmbH — *Vienna, Austria*

Software Engineer — Jul 2019 – Jun 2023

Founding full-stack engineer at a legal tech startup. Built and shaped the core platform enabling users to manage dynamically created contracts - from employment to real estate - including KYC workflows and multi-stakeholder processes. Drove fundamental architecture decisions and mentored junior developers.

Vue.js · Laravel · Docker · Full-Stack

TU Wien - Technical University of Vienna — *Vienna, Austria*

Tutor — Sep 2020 – Aug 2022

Tutored students in group projects for two courses: Software Engineering & Project Management, and Requirements Engineering & Specification. Taught Agile methodology, Requirements Engineering, Java Spring, and Angular.

Teaching · Agile · Requirements Engineering · Java Spring · Angular

Hebotek — *Vienna, Austria*

Web Developer — Oct 2017 – Jul 2019

Development and maintenance of TYPO3 websites and custom projects for various customers.

Angular · Node.js · React · Laravel · TYPO3
