Dynatrace
Vienna, Austria

Software Engineer & Team Captain — Apr 2025 – Present

Leading a team of engineers as Team Captain while continuing hands-on development. Responsible for team coordination, technical decision-making, and ensuring delivery quality across the sprint cycle.

Team Leadership · Agile · Software Engineering

Software Engineer & Agile Advocate — Mar 2024 – Apr 2025

Championed agile practices across the engineering organisation, facilitating retrospectives, improving workflows, and promoting a culture of continuous improvement alongside regular feature development.

Agile Advocacy · Process Improvement · Software Engineering

Software Engineer — Jan 2024 – Mar 2024

Joined Dynatrace as a software engineer, contributing to feature development and integrating with existing platform services.

Software Engineering

World4You Internet Services GmbH
Vienna, Austria

Software Engineer — Jul 2023 – Dec 2023

Developed and maintained web hosting platform features, working across frontend and backend systems to improve customer-facing products and internal tooling.

PHP · Vue.js · Docker

Advoodle Legal Tech GmbH
Vienna, Austria

Software Engineer — Jul 2019 – Jun 2023

Senior full-stack engineer at the founding of this legal tech startup. Built and shaped the core platform enabling users to manage dynamically created contracts - from employment to real estate - including KYC workflows and multi-stakeholder processes. Drove fundamental architecture decisions and mentored junior developers.

Vue.js · Laravel · Docker · Full-Stack
